# MONTANA UNIVERSITY SYSTEM

## Strategic Plan 2010

### INTRODUCTION

The Montana University System Strategic Plan is the primary planning document of the Board of Regents. The Plan sets forth an agenda for higher education in Montana by delineating the strategic directions, goals, and objectives that guide the Montana University System (MUS).

#### History

In July 2006, after several years of study, public dialogue, and internal deliberations, the Board of Regents approved the Strategic Plan. Since then, updates have occurred annually, including revisions to strategic initiatives as well as a refreshing of the data within each goal.

The development of the Strategic Plan began with two primary initiatives. The first was to work more closely with the interim legislature to develop a set of mutually agreed upon accountability measures that would guide the MUS and evaluate progress. Working with the Postsecondary Education Policy and Budget (PEPB) subcommittee of the 57<sup>th</sup> Legislature, the Board of Regents did develop this set of accountability measures in July 2002. Subsequently, the PEPB subcommittee has updated the accountability measures. This latest set of agreed-upon measures evolved into “shared policy goals” and work to form one base for this strategic plan.

The second initiative was to work with the PEPB Subcommittee to explore new ways for the MUS take a more direct leadership role in the state’s economic development. This overall effort, called “Shared Leadership for a Stronger Montana Economy”, engaged a broad range of Montanans to prioritize specific initiatives that would help establish a new role for the MUS in strengthening the state’s economy. The Governor’s Office and several legislative interim committees were included in the effort. In July 2004, the Board of Regents and the PEPB subcommittee met jointly and agreed on three priority initiatives for immediate implementation:

- Develop stronger business-university system partnerships for workforce training;
- Remove barriers to access for postsecondary education; and
- Expand distance learning programs and training.

#### Goals

The Strategic Plan is comprised of three primary goals that contain a series of sub-goal statements and objectives within each area.

##### ***Goal 1: Access & Affordability***

Increase the overall educational attainment of Montanans through increased participation, retention and completion rates in the Montana University System

##### ***Goal 2: Workforce & Economic Development***

Assist in the expansion and improvement of the state’s economy through the development of high value jobs and the diversification of the economic base

##### ***Goal 3: Efficiency & Effectiveness***

Improve institutional and system efficiency and effectiveness

Maintaining the high quality of our institutions and the education provided to our students is not listed as an explicit goal. This is because it is THE MOST IMPORTANT consideration for every goal and initiative of the Montana University System and is considered to be an integral part of every component of this strategic plan.

# MUS Strategic Plan

## College Participation

### Goal 1: Access & Affordability

#### System Initiatives:

- Two-Year College Initiative:** increase access and participation at two-year institutions by improving online access, growing dual enrollment opportunities, customizing programs for nontraditional students, and promoting two-year education as a low-cost, viable entry point to high-demand occupations and/or to four-year degrees.
- Access to Success (A2S):** collaborative effort among states aimed at increasing the participation and success of low income students and students from ethnic/racial groups.
- GEAR-UP (Gaining Early Awareness & Readiness for Undergraduate Programs):** a six-year federal grant awarded to Montana in 2005. This initiative encourages and supports students to set high academic expectations, stay in school, study hard and take appropriate courses to prepare them for college-level studies.
- Faculty & Staff Recruitment and Retention Efforts:** the MUS will continue to involve faculty and staff in comparative analysis and development of recommendations for improving recruitment and retention.

### Goal Statement

Prepare students for success in life through quality higher education

#### Objective 1.1.1

Improve postsecondary education participation rates, with particular attention to Montana residents in MUS institutions

#### Metric 1.1.1

##### Montana College Continuation Rate

## Retention & Completion

**Goal 1:**  
Access & Affordability

**System Initiatives:**

- Montana University System Writing Assessment:** improve the college-readiness of high school students by raising student and teacher awareness of the qualities of college-level writing and providing students with an assessment of their writing proficiency during the junior year.
- Two-Year College Initiative:** improve retention and graduation rates at two-year colleges by communicating consistently about college-readiness based on educational goals, emphasizing two-year degree completion and transfer, and reward retention and completion through performance-based allocations.
- Veterans' Upward Bound:** a program designed to help military veterans refresh their academic skills so that they can successfully complete postsecondary education. Located at 15 sites statewide, this program provides educational services to over 2,000 low-income and first-generation college bound veterans. [www.vubmt.com](http://www.vubmt.com)

# MUS Strategic Plan Financial Aid

## Goal 1: Access & Affordability

### State Funded Need-based Aid Programs:

#### Montana Tuition Assistance Program (MTAP) – Baker Grants

- Program consists of State and Federal (SLEAP) dollars
- Allocations based on FTE
- MUS, Community Colleges, and Tribal Colleges receive funds
- SLEAP program requires minimum of \$2 state match for every \$1 Federal.

#### Montana Higher Education Grant (MHEG)

- Program consists of State and Federal (LEAP) dollars
- Allocations based on FTE
- MUS, Community Colleges, and Tribal Colleges receive funds
- LEAP program requires minimum of \$1 state match for every \$1 Federal.

#### State Work Study

- Allocations based on FTE (adjustments made depending on campuses ability to use funds)
- MUS and Community Colleges receive funds

#### State SEOG Match

- Allocations based on campuses Federal SEOG allocations
- \$1 State for every \$3 Federal
- MUS and Community Colleges receive funds

#### Perkins Loan

- Allocations based on former Federal matching requirements
- UM-Missoula, MSU-Bozeman, MSU-Billings, and MT Tech receive funds

### Goal Statement

Make higher education more affordable by offering more need-based financial aid and scholarships

#### Objective 1.2.1

Reduce the amount of unmet student need for financial aid

#### Metric 1.2.1

##### Unmet Need of Students Receiving Pell Grants

# MUS Strategic Plan Affordability

## Goal 1: Access & Affordability

### System Initiatives:

- **Tuition Cap:** continue freeze on tuition for FY10 and FY11 at smaller four-year campuses and all two-year colleges
- **Two-Year College Initiative:** Increase access and participation at two-year institutions by improving online access, growing dual enrollment opportunities, customizing programs for nontraditional students, and promoting two-year education as a low-cost, viable entry point to high-demand occupations and/or to four-year degrees.

### Goal Statement

Promote postsecondary education affordability

#### Objective 1.3.1

Increase the amount of state support as a percentage of total personal income relative to peer states and historical levels

#### Metric 1.3.1

## K-20 Collaboration

### Goal 1: Access & Affordability

#### System Initiatives:

- Perkins/Tech Prep:** in collaboration with OPI, K-12 school districts, two-year colleges, and business and industry, develop and promote sequential curriculum providing high school students with a clear, non-duplicative pathway from high school to two-year colleges and/or careers.
- Montana University System Writing Assessment:** improve the college-readiness of high school students by raising student and teacher awareness of the qualities of college-level writing and providing students with an assessment of their writing proficiency during the junior year.
- Montana Education Talent Search:** offers services to ensure that students complete high school and successfully enter college or vocational school. Talent Search is one of the federal TRIO programs (Talent Search, Upward Bound, Student Support Services) funded by the U.S. Department of Education and administered by the Commissioner of Higher Education since 1979. The program director at OCHE supervises coordinators who provide educational outreach to over 1,200, primarily American Indian, students at 32 junior and senior high schools in five target areas throughout Montana.

#### Goal Statement

Work collaboratively with the K-12 education system to increase high school academic preparedness, completion, and concurrent enrollment programs

#### Objective 1.4.1

Expand outreach to at-risk and disadvantaged students as to the importance and accessibility of postsecondary education and the quality of the MUS

#### Metric 1.4.1

## Two-Year Education

**Goal 1:**  
Access & Affordability

**System Initiatives:**

- Two-Year College Initiative:** Promote two-year education as an affordable, viable portal to high-demand occupations and/or four-year degrees by bringing the comprehensive community college mission to all Montana two-year colleges; customizing programs for adults and broadening opportunities for high school students; focusing on effective remediation, degree completion and transfer; coordinating curriculum across the system, and creating the technology infrastructure that supports resource-sharing, improved access, and greater efficiency.

**Goal Statement**

Increase postsecondary enrollment of traditional and non-traditional students through expanded outreach programs, evening/weekend programs, and 2-year programs

**Objective 1.5.1**  
Increase enrollment in two-year programs

## Distance Learning

**Goal 1:**  
Access & Affordability

**System Initiatives:**

**MUS Distance Learning Initiative:**

In the 2005 and 2007 legislative sessions, the Montana Legislature appropriated funds specifically aimed at increasing the availability of distance learning in the Montana University System.

With these funds (\$300,000 in 2005, \$900,000 in 2007) the university system invested in distance learning resources, faculty, and infrastructure. As a result, Montana universities and colleges now offer more than 70 online degrees and nearly 500 internet classes.

MUS.edu/online is a central location for students, faculty, and the public to find information on distance education opportunities and topics in the MUS.

## Workforce Development

### Goal 2: Workforce & Economic Development

#### System Initiatives:

- Perkins:** Promote preparation for and entry into high-wage, high-demand careers, with particular emphasis on under-represented demographics, by building strong career/technical education programs in K-12 school districts, two-year colleges, and community-based organizations.
- Tech Prep:** In collaboration with OPI, K-12 school districts, two-year colleges, and business and industry, develop and promote sequential curriculum providing high school students with a clear, non-duplicative pathway from high school to two-year colleges and/or careers.

#### Goal Statement

Increase responsiveness to workforce development needs by expanding and developing programs in high demand fields in the state

#### Objective 2.1.1

Increase employer satisfaction with graduates

#### Metric 2.1.1

For the metric, employer satisfaction is measure at the program level within each two-year institution. Program-level employer satisfaction surveys results are located: [http://mus.edu/data/employer\\_satisfaction.asp](http://mus.edu/data/employer_satisfaction.asp)

#### Objective 2.1.2

Increase degrees and certificates awarded in high-demand occupational fields

#### Metric 2.1.2

## Workforce Development

(Continued)

**Goal 2:**  
Workforce & Economic Development

**System Initiatives:**

- Montana Career Information System:** In collaboration with the Student Assistance Foundation, OPI, and the Department of Labor, raise career awareness and promote career/technical education for both traditional and nontraditional students through a dynamic, online program depicting job opportunities in Montana, assessing skills and interest, and providing curriculum counseling.
- Two-Year College Initiative:** Promote two-year education as a cost-effective, high-quality portal to high-demand, high-wage careers by establishing regional workforce response teams comprised of business and industry leaders, economic development organizations, K-12 school districts and local two-year colleges.

**Goal Statement**

Increase responsiveness to workforce development needs by expanding and developing programs in high demand fields in the state

**Objective 2.1.4**

Increase the number of certificates and degrees conferred in 2-year programs

# MUS Strategic Plan Research & Development

**Goal 2:**  
Workforce & Economic  
Development

**System Initiatives:**

**Montana Science Serving Montana Citizens** is a statewide science and technology plan for higher education and related enterprises in Montana. The Plan, developed by the MUS Science and Technology Advisory Committee (MUSSTAC), will help identify priorities for the MUS and the State of Montana in the allocation of resources to a research enterprise that has great potential to grow and flourish <http://mus.edu/research/MUSSTACbrochure.pdf>

**EPSCoR**  
Sponsored by grants from the National Science Foundation (NSF), the Experimental Program to Stimulate Competitive Research (EPSCoR) is designed to promote the development of science and technology resources across the United States. Through partnerships with universities, government, and small businesses, Montana NSF EPSCoR operates on the principle that aiding researchers and institutions in securing federal research and development funding will develop the state's research infrastructure and advance economic growth. <http://www.mtnsfepscor.org/about.html>

**Goal Statement**

Establish collaborative programs among institutions, the private sector, and the state to expand research, technology transfer, the commercialization of new technologies, and the development of our entrepreneurs

# Information Technology

## Goal 3: Efficiency & Effectiveness

### System Initiatives:

- **CC Banner Integration:** integrate Dawson Community College and Miles Community College into University of Montana hosted instance of Banner
- **MSU Unified Information System Project:** establish a single, unified and standardized information system, based on standardized policies, procedures, data elements and calendars for all campuses and agencies of MSU
- **Northern Tier Network:** operate and maintain a state-of-the-art network which provides high speed connections between campuses, as well as connections to national research and education networks.
- **K-20 Data Linkage:** develop linkages between K-12, postsecondary, and labor information in order to produce a method for annually tracking student cohorts from high school to college to the workforce.

### Goal Statement

Improve the accuracy, consistency and accessibility of system data, including the continued development of a comprehensive data warehouse

### IT Strategic Directions

In order to meet the three primary goals outlined in the Board of Regents' Strategic Plan, the Montana University System will strive to implement the following Information Technology Strategic Directions:

#### 1. Enterprise Information Systems

Develop an integrated information system with the goal of maximizing administrative efficiencies, allowing for seamless student enrollment between campuses, and promoting consistent business practices across all institutions.

Assumptions:

- The MUS will continue to make incremental steps toward developing a single integrated information system.
- Incremental steps include, but are not limited to, the following:
  - Utilizing a single instance of the administrative information software that is hosted and managed by the main campus on each side of the system (i.e. UM and MSU host a single instance of Banner for their affiliated campuses, with the potential for including the community colleges, as well as tribal colleges).
  - Allowing for multi-institutional functionality to enable (for example): enrollments from more than one campus on students' schedules and transcripts, financial aid based on combined enrollment at more than one institution, centralized administrative services, such as, a single source for payroll generation.
  - Standardizing codes and data elements, as well as aligning business rules and practices.

#### 2. Network Connectivity

Continue to develop and improve an education network that provides high speed telecommunication capabilities that link MUS institutions, provide connectivity to national research and education networks, and expand the reach of the MUS to remote areas of Montana.

#### 3. Data Warehousing

Maintain and work to improve a system-wide data warehouse for the purpose of measuring the goals in Board of Regents' Strategic Plan, collecting and reporting official enrollment, developing linkages with K-12 and workforce data, and producing and monitoring the MUS Operating Budget.

# MUS Strategic Plan Efficiency

## Goal 3: Efficiency & Effectiveness

### System Initiatives:

- Two-Year College Initiative:** create efficiencies in curriculum and information enterprise systems that clarify college-readiness and improve the efficiency of the high school to college transition and that allow the system to serve more students more affordably.
- Expenditures by Program:** expenditures for Instruction, plus Academic Support, plus Student Services should account for at least 70% of total expenditures.
- Cost Control:** controlling educational cost growth must be a central tenet of an efficient and affordable educational system. The MUS strives to limit the growth in educational costs to the growth in CPI.

## Transferability

**Goal 3:**  
Efficiency & Effectiveness

**System Initiatives:**

**MUS Transferability Initiative:**

The 2007 Legislature appropriated \$1.5 million to help the MUS improve the transferability of courses and further develop its centralized data system.

As a result, the MUS initiated a “*common course numbering*” process for all undergraduate courses. This process requires that all courses deemed to be equivalent must possess the same course prefix, number, and title; all courses with same name and number will directly transfer on a one-to-one basis with equivalent courses at the receiving institution.

**Progress:**  
As of January 2010, more than 6,500 courses in 40 disciplines have gone through the Common Course Numbering process.

**Goal Statement**

Work collaboratively with the K-12 education system to increase high school academic preparedness, completion, and concurrent enrollment programs

**Objective 3.3.1**

Improve articulation and transferability among all 2-year and 4-year institutions, including community colleges and tribal colleges

**Metric 3.3.1**

**MUS Transferability Initiative – Common Course Numbering**

- a. All undergraduate courses in the Montana University System will go through the process of common course numbering

*Benchmarks:*

- 12 disciplines completed by January 1, 2009
- 10 additional disciplines completed by June 30, 2009
- All disciplines completed by June 30, 2011

- b. All courses deemed to be significantly similar must possess the same prefix, course number, title and credits; and directly transfer on a one-to-one basis

See BOR Policy 301.5.5 – [Equivalent Course Identification and Numbering](#)

- c. Common course numbering will result in a transparent computerized program that demonstrates transferable courses across the university system

## Budget Allocation

### Goal 3: Efficiency & Effectiveness

#### System Initiatives:

- **Allocation Model Review:** the present “base plus” allocation model requires a comprehensive review/update. System goals, Regents’ priorities, enrollment changes, performance/outcomes and incentive funding are a few of the critical issues requiring study and analysis, as we move toward a revised allocation model.

#### Goal Statement

Biennial review/update of the budget allocation model consistent with state and system policy goals and objectives

#### Background

The Montana Legislature allocates the vast majority of funding for our education units in a “lump sum” that is then allocated by the Regents to the individual institutions within the system. How these funds are allocated is central to every strategic objective of the Board. In order to achieve the goals and objectives in this strategic plan, the basic funding allocation model must be continually analyzed. To be an effective tool for achieving our strategic goals, the allocation model should, at a minimum:

- Focus on financing for the state system, not only funding for the individual campuses;
- Be transparent as to the policy choices of the Regents, Legislature, and executive branch;
- Provide a framework for dealing with allocations to institutions, tuition revenues, financial aid, and mandatory fee waivers;
- Have a specific fund dedicated to furthering Regents’ priorities;
- Protect institutional viability by moderating the short-term effects of enrollment changes;
- Provide incentives for institutions to collaborate as a system;
- Ensure equity of funding among all institutions;
- Maintain an adequate base of funding and education quality for all institutions;
- Maintain a differential between 2-year and 4-year tuition.
