Authorization to Expend up to \$60,000 of Student Computer Fees; The University of Montana Western

THAT

The Board of Regents authorizes The University of Montana Western to expend up to \$60,000 of Student Computer Fees for renewal and replacement of a current computer lab.

EXPLANATION

This expenditure will provide for renewal of the large Intel Lab in the Swysgood Technology Center (STC). This lab is next in line in Western's Lab Renewal and Replacement Plan. The lab would normally be upgraded Summer of 2012, but it was felt that keeping the environment in sync with recently upgraded labs in the STC would provide a more consistent environment for Montana Western's students.

This expenditure has been approved by Montana Western's Computer Fee Committee.
