Specify Request:

The College of Nursing at Montana State University is seeking approval to begin offering an accelerated second degree alternative for students to earn a baccalaureate degree in nursing. This alternative would be available only to students who already have a baccalaureate degree in a discipline other than nursing. Students would be required to have completed the same or equivalent pre-requisite courses as basic students. Once admitted to the nursing major, they would be able to complete the nursing degree in approximately 16 months, as opposed to the 29 months it takes basic students. This alternative would not be a new program. The curriculum, number of credits earned, and degree would be the same as the basic BSN degree program.
