

ITEM 155-101-R0512

Information Technology – Privacy, Security, and Monitoring

THAT

The Board of Regents of Higher Education hereby revises Policy 1302, Privacy, Security, and Monitoring, by removing the requirement that each campus report semi-annually to the Office of the Commissioner of Higher Education on the implementation of this policy.

EXPLANATION

Policy 1302, Privacy, Security and Monitoring, outlines the general rules governing the Montana University System's rights and responsibilities to monitor the use of the computers and networks it operates and the balance between those rights and responsibilities and the expectation of a reasonable degree of privacy in the use of those facilities by users. The revision to Policy 1302 removes the reporting requirement from this policy as it has proved unnecessary.
