Graduating senators, be looking for senators to represent your department next year.

**Adjourn**

UM Helena College of Technology  
I.T. Staff Request for funding  
April 3<sup>rd</sup>, 2012

Dear Student Senate:

The I.T. Staff is asking the Students to allocate \$100,000 dollars from the Computer fees fund to buy laptop computers for Faculty to replace their current 3 year old computers and to replace another aged computer lab of 20 computers. We try to maintain a 3 year rotation on computers.

This is NOT a new fee request; these are funds that have already been assessed.

UM Helena College of Technology offers many classes that utilize newer programs that require computers for delivery of class related material. Replacing these aging computers will benefit the student body and help raise the technology level of our classes to today's standards.

The I.T. Staff will be happy to answer any questions you may have about the computer lab purchases and the allocation of these funds.

Thank you for your attention to this matter,

Jeff Block, Director I.T. services
