

WSJ #2 - Many of newly hired are doing little teaching...University of MN hired over 1000 administrators in past 10 years, administrators grew more than twice as fast as the teaching ranks and nearly twice as fast as the student body. Nationally, administrators in higher education increased 50% faster than instructors between 2001 and 2011 says the US Dept of Education. (page 1, paragraphs 2 and 3)

MUS Student and Employee Growth Rates, 1999 to 2011

Total Full and Part-time Students & Employees

MUS Summary Points

MUS student enrollment outpaced the growth of administrators (26% to 17%).

Faculty hires (instruction/research) also outpaced the growth of administrators (34% to 17%).

The total number of employees grew at the same rate as students (both 26%).
