MONTANA STATE UNIVERSITY

BOZEMAN | BILLINGS | NORTHERN | GREAT FALLS COLLEGE

CAMPUS REPORT | Board of Regents Meeting | January 12, 2017 | Helena Conference Call

MONTANA STATE UNIVERSITY | BOZEMAN

Montana State University celebrated <u>fall commencement</u> on December 17. At the 125th ceremony, more than 1,250 students received degrees, and John Heminway, a Montana-based award-winning writer and documentary filmmaker, received an <u>honorary doctorate degree</u>.

MSU students received several prestigious scholarships:

Josh Carter, a senior with a passion to develop smart prosthetics and find a way to distribute them to the people throughout the world who most need them, was named a recipient of a <u>2017 Rhodes Scholarship</u> to study at Oxford University.

Riley Shearer was named a <u>Schwarzman Scholar</u>, one of 129 selected from 2,747 candidates from 30 countries and 75 universities. The scholarship will allow him a year's study in China. The Schwarzman scholarships were developed by Stephen A. Schwarzman, chairman, CEO and co-founder of Blackstone, one of the world's leading investment firms.

Karsten Lorentz, a 2015 MSU graduate, won a <u>Fulbright Scholarship</u> that will send him to New Zealand to investigate two of the world's most renowned glaciers.

MSU was recognized with a <u>national award for its education and workforce development</u> initiatives. MSU also won the "talent" category of the APLU's fourth annual Innovation and Economic Prosperity Awards.

A 20-year partnership between MSU and members of the Crow Nation recently received a grant to <u>improve chronic illness management</u>. The five-year grant from the <u>National Institutes of Health</u> will fund the Báa nnilah Project, which is a collaboration between MSU and the nonprofit Messengers for Health in Crow Agency.

A feature in Ceramics Monthly about <u>Josh DeWeese</u>, <u>MSU associate professor of ceramics</u>, focused on his studio practice, his past directorship at the Archie Bray Foundation in Helena and his show held earlier this year at the Eutectic Gallery in Portland, Oregon.

A naturally occurring bacterium MSU discovered has been <u>registered for commercial use</u> and sale by the <u>U.S.</u> <u>Environmental Protection Agency</u> for its impressive plant-disease fighting capabilities.

MSU's I LEAD program, which recruits and educates <u>American Indian educators for school leadership positions</u> in Montana and neighboring states, has received a \$1.3 million grant from the <u>U.S. Department of Education</u>.

MSU has been named among the <u>best colleges for veterans</u> by Military Times magazine. MSU was also named one of the Top 100 Best College buys.

A regional interdisciplinary team led by MSU received <u>\$6 million to develop new innovations at the intersection</u> of food, energy and water systems while training the next generation of scientists.

This fall, MSU held its first Diversity Summit as part of its efforts to develop a Diversity and Inclusion Plan.
