ITEM 180-102-R0718

Revision to Policy 940.13 – Tuition Waivers

THAT

The Board of Regents approve recommended policy changes that clarify budget and benchmark requirements related to non-resident student discounts.

EXPLANATION

Policy 940.13 – Tuition Waivers, contains specific language intended to guide campus practices in awarding non-resident student discounts. The current language is not only confusing, but also includes WUE students who are charged a BOR approved tuition rate (i.e. 150% of the resident rate) in the calculation of non-resident student discount benchmarks. This policy change seeks to clearly specify the benchmark calculation and clean unneeded policy language.
