

September 11-12, 2019

ITEM 184-2801-R0919

Request for authorization to modify Phase 1 of Athletic Field Improvement Project, Montana State University Northern

THAT

Consistent with provisions of MCA 18-2-102, the Board of Regents of Higher Education authorizes the inclusion of construction of a press box as part of Phase 1 of the Athletic Field Improvement Project, which will enable the university to host a collegiate home games on campus.

EXPLANATION

On March 9, 2018 the Board approved Item# 178-2801-R0318, Phase 1 of Athletic Field Improvement Project. This phase included all-purpose turf, scoreboard, goal posts, landscaping and site work with utilities. Upon additional site investigation, it has been determined that a press box is required to host a collegiate event.

The original request anticipated a value of Phase I to be approximately \$2.5M, with the potential for a lower cost due to in-kind contribution of services. The addition of a press box is expected to be done within the original approved authority. No additional authority is being requested for this change.
