

Dual Enrollment 2022 Annual Report

Jacque Treaster

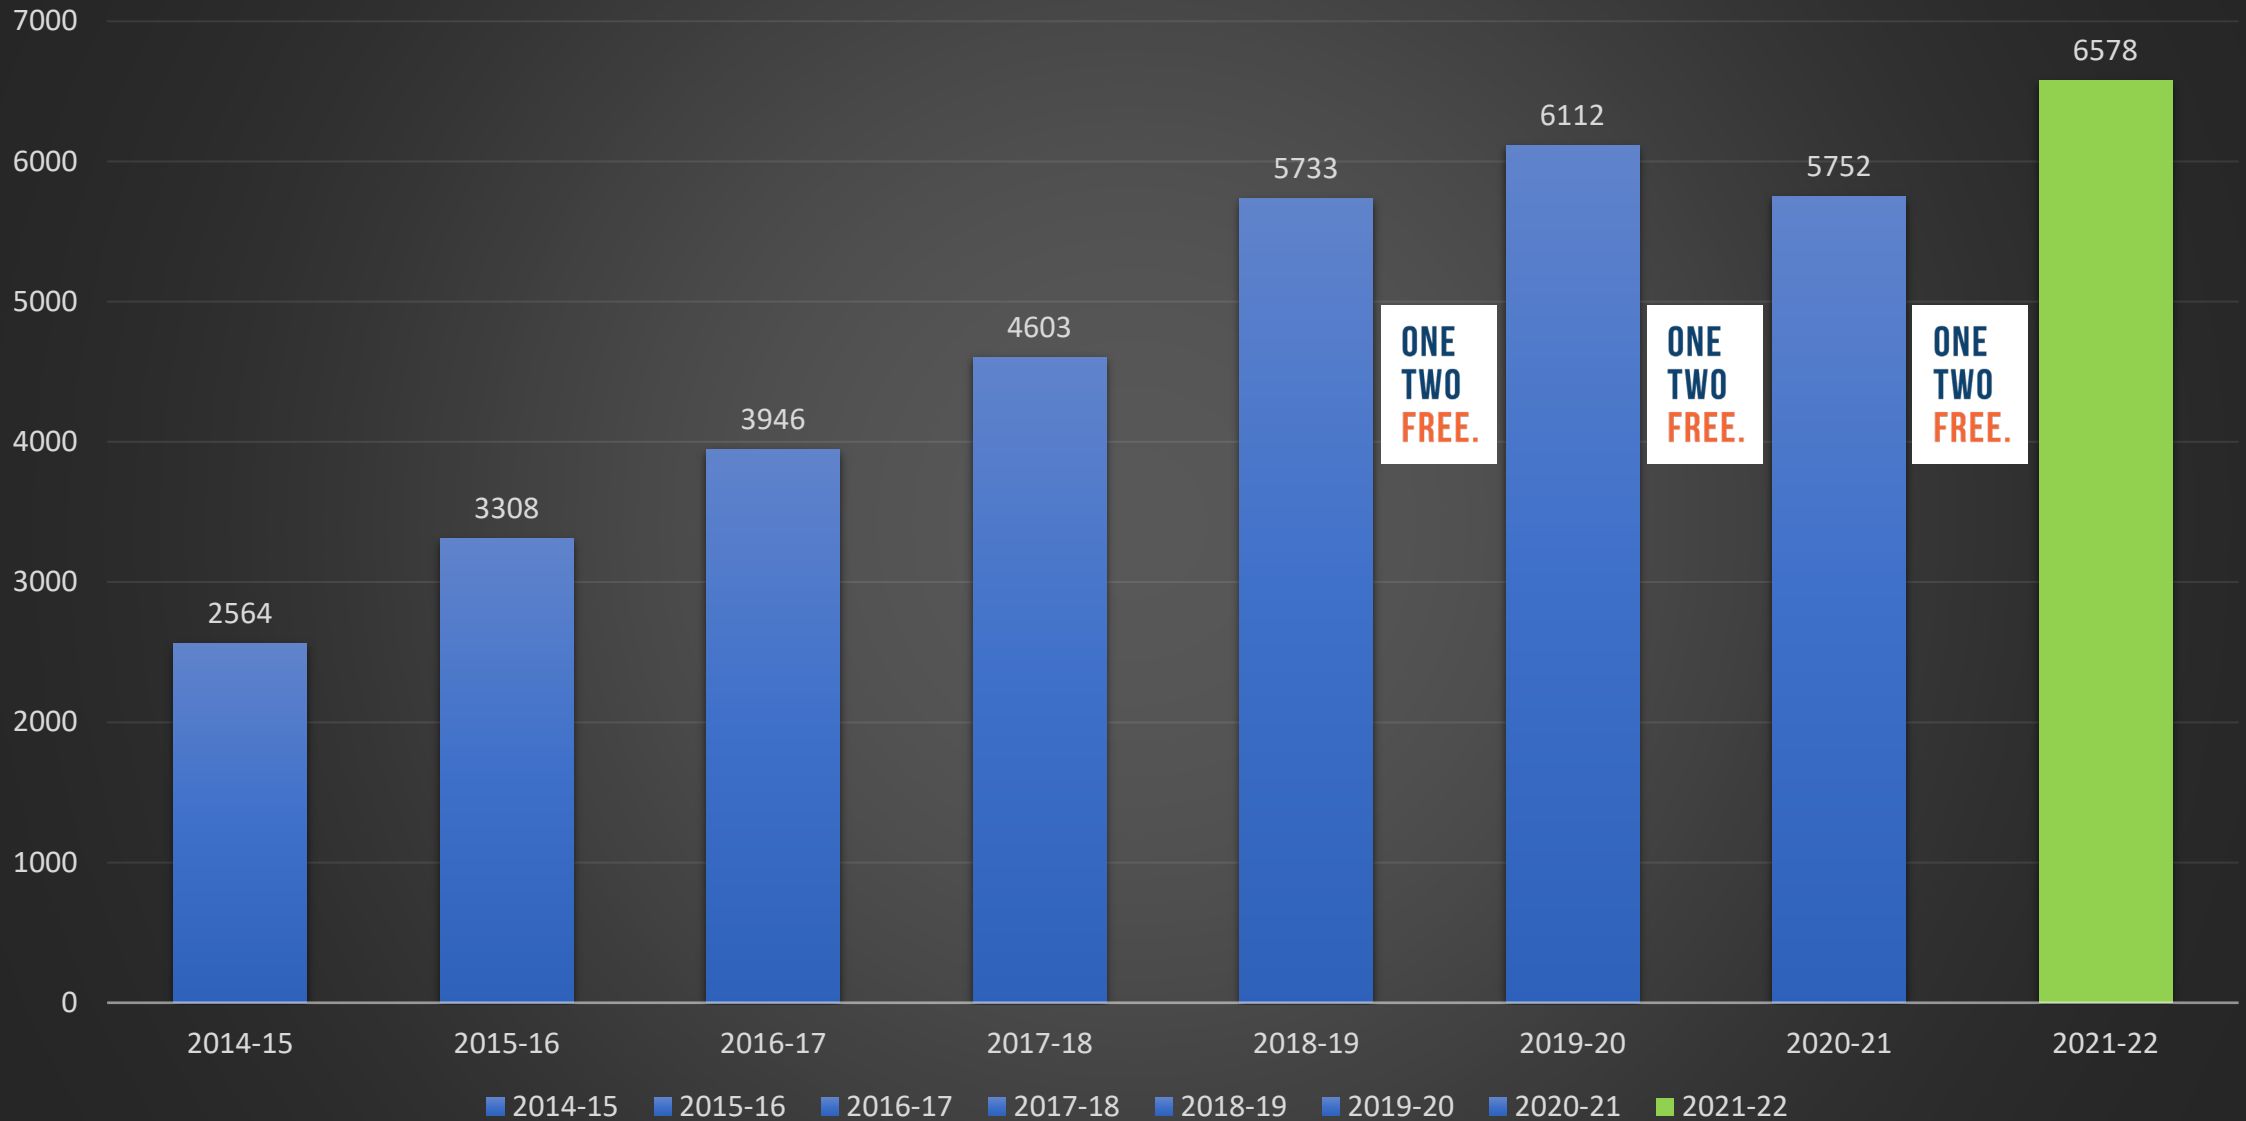

Director of Dual Enrollment and Career & Technical Education

What is Dual Enrollment (DE)?

Dual Enrollment Students

Annual number of high school students (age 19 or younger) enrolled in at least one college class; all counts are unduplicated counts (a student that takes dual enrollment in both the spring and fall will only be counted once if both terms are selected). Dual credit classes are taught in the high school and students are granted both high school and college credit for the class. Totals are not the sum of the columns because a student may be taking both a dual credit course and one that is not.

of eligible enrolled high school students received college credit in the 2021-2022 school year

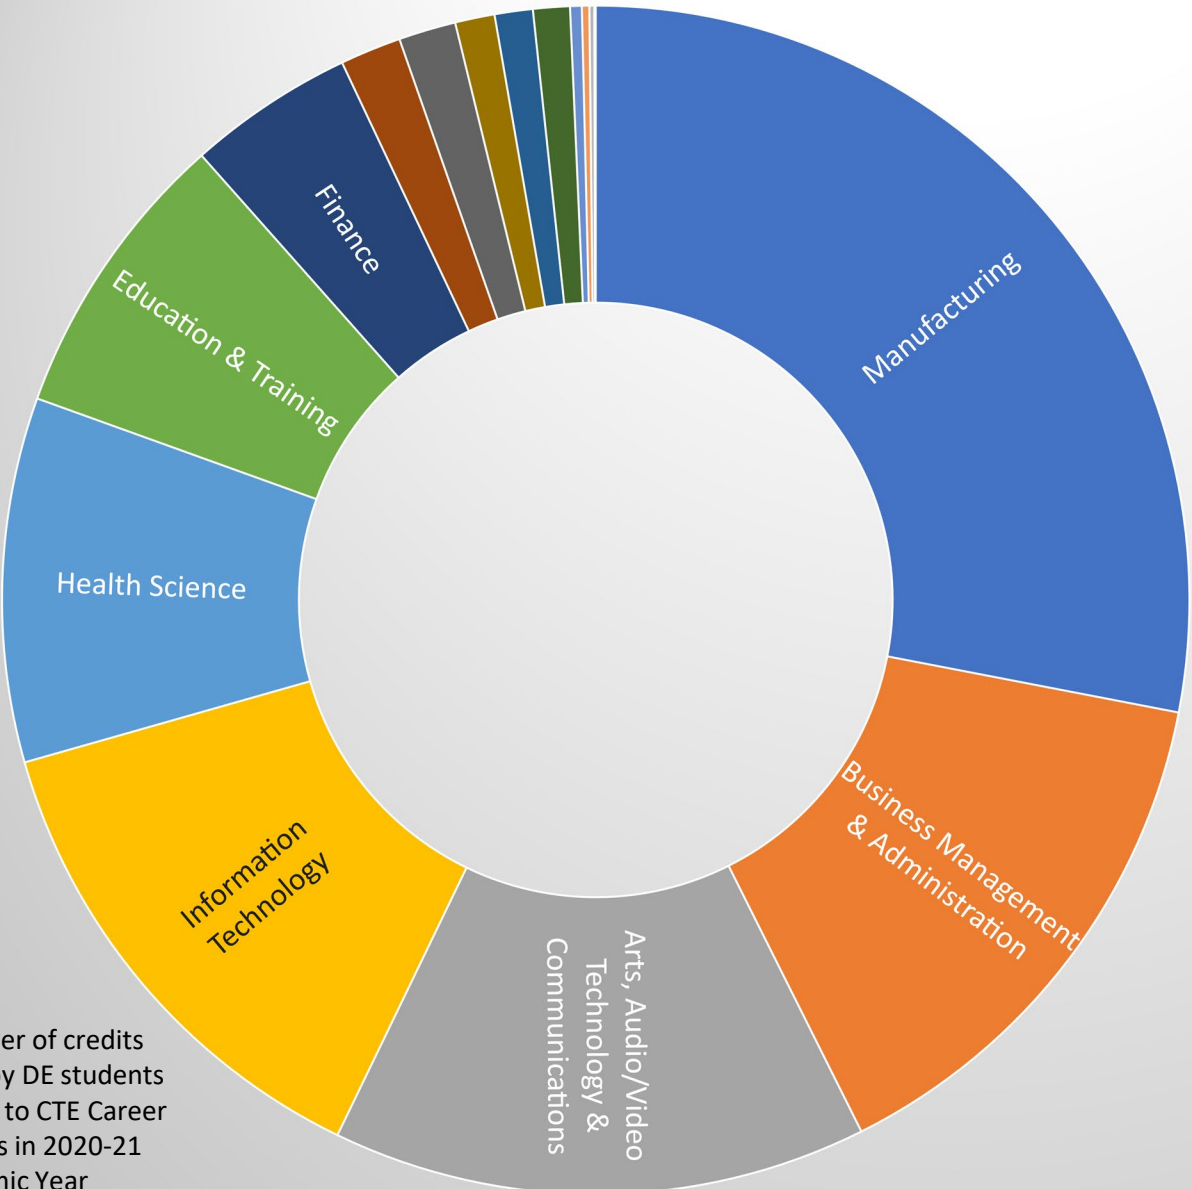

of dual enrollment students enroll in MUS within 2 years of DE*

*Average of last five measurable DE cohorts (2013-14 to 2017-18)
