

# Crosswalk of Existing and Revised policy 301.11

Change Overview	Old Policy	New Policy	Notes
Eliminates reference to 120 credit maximum	Focus on limiting credits	Makes 120 credit the default for degrees, any exception must go through the procedure defined in Part III of the policy	Policy is adaptable to reduced credit baccalaureate, should the Regents approve these degrees
Defines BA, BS and Professional Baccalaureate	No definition of degree types	Defines maximum percentage of credits that may be included in major requirements.	Uses NWCCU language to define degree types  Old policy limited majors to between 31-48 credits, with the exception of extended majors that must be required by professional expectations or specialized accreditation
Defines elements of any baccalaureate degree	No Definition of elements of the degree	Requires all degrees to include general education, major requirements and electives	
Changes “option” to “concentration”			
Moves definitions of Major, Minor, and Concentration from 303.1 to 301.11		Delete extended major and moves programs that included requirements for professional expectations or specialized accreditation standards to the professional degree	
Eliminates Definitions from 303.1		Definitions are not included in 301.11 and 301.12
