November 19-20,

2026 ITEM 227-102-R1126

Request authorization to revise Board of Regents Policy 301; Admission Requirements

THAT

That the Montana Board of Regents approves the proposed revisions to 301; Admission Requirements.

EXPLANATION

The proposed changes would allow for dual enrollment courses to be included in allowable courses for scholarship purposes and to be counted as the credit they would have received on a college campus. For example: a one semester dual enrollment math course, would count towards a one year math requirement for scholarship purposes.
