MONTANA RESIDENCY INFORMATION

The Montana University System has different tuition rates for state residents and non-residents. Out-of-state tuition fees are higher than in-state tuition fees. The test for residency for tuition and fee purposes is unique, and residency requirements for other purposes may differ. Certain requirements, established under Montana law and Board of Regents policy, must be met.

Your initial residency classification is determined by the campus admissions office based on the information you provide on this application. The burden is on you to establish that you meet the residency requirements.

Out-of-state tuition will be charged if the admissions office decides either that you do not meet the residency requirements or that you have not met your burden of proving you meet the residency requirements. You can appeal this with the admissions office at your chosen campus(es).

You will have an opportunity to respond and provide additional information to be reviewed by the Campus Safety Questionnaire Review Committee. Any falsification or omission of information may result in a denial of admission or referral to the Office of the Dean of Students.

Have you been convicted of or pled guilty or no contest to any crime, including in any military proceeding, regardless of location? *
