THE PROBLEM: COLLEGE READINESS

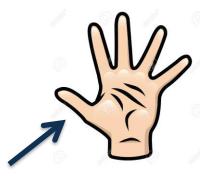

Scholarship Identification and Application

- Build awareness of the need for postsecondary education
- Increase financial competency
- Learning how to set goals
- Perform research
- Document successes

Portfolio Creation

Students identify what they have already done and what they wish to accomplish.

- Analyze accomplishments
- Collect artifacts
- Present information in different settings for different purposes.

Career Exploration

Students assess their interests and identify resources that can assist them in further developing skills and knowledge.

- Montana Career Information System
- Guest speakers
- Informational interviews
- Job shadowing
- Internship scoping

Dual Enrollment & Internships

Students build bridges to the future through experiencing post-secondary education and vocational training while still in high school.

- Research college programs
- Interpret syllabus content
- Think about careers that may involve more than one discipline

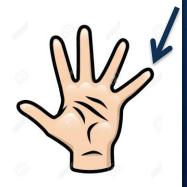

Success Prints

COURSE COURSE

The object of the 4-person board game is to:

- Maximize academic performance
- Make social connections
- Manage stress
- Earn money to pay for tuition
- Respond to unforeseen life events

CRITICAL RECEPTION

"This is the first game I feel could be useful for real life." -Senior "My students were very impressed with the game and were still talking about it at the end of the day." -Educator

"Can we play again? I know how I can do better next time!"
-Junior

"Before playing, I had no idea there were so many fun social opportunities on campus other than partying!"

-Senior

"I never thought about managing my time in this way." -Sophomore

"I love how interactive the game is allowing students to ask the questions that are most important to them."

-Educator

"The story on these cards is so fun, I love how they don't shy away from more mature topics." -Sophomore

ROAD TRIP!
6000 miles later
and the feedback
is astounding!

This is dank! -Junior

Consider your college schedule like a job. Get up in the morning and work at college all day by going to class, studying in the library, & taking advantage of campus resources like the writing center or math lab. @getschooled #firstgen #collegeadvice #BetterMakeRoom

Current college students: what advice do you have for incoming freshmen when it comes to making their schedule?

Blueprints for Student Success-Montana Published by Tricia Seifert [?] - 22 hrs - 3

This is an inspiring story for anyone who will be (or is) first in their family to attend college.

steauleu ille as the bridge bouriceu

As students go off to college in the coming weeks, I invite them to reach out and find the guide wires on campus who will help steady them. These awesome people might be a #peer #orientation leader or a Residence Advisor. They may be a #faculty member or a Teaching Assistant. The first week of #college can feel bouncy and unsteady; just like this bridge. But know that guide wires are on both sides of you; you just have to reach out and hold on.
